

# 's Cultural Canvas

Imagine a world where all the houses everywhere were one style, shape, size, and color. Cities and towns would look so dull! And how would you remember which house was yours? Luckily, our planet has infinite styles of architecture, from skyscrapers to castles to cabins.

Where you live expresses your culture—along with language, customs, food, celebrations, clothing, music, sports, games, and art. All of these things make you unique. How does your culture color your life?
