

Into The Future

"Lift up your hearts above the present and look with eyes of faith into the future!" —'Abdu'l-Bahá

When you imagine the future, do you think of cool gadgets, like jetpacks or robots? Do you dream of taking thrilling voyages in space or living on another planet?

Space-age tools already help us connect with each other, learn faster, and work smarter. But a hopeful future isn't just about advancing our technology. It depends on advancing our hearts and minds. When everyone sees all people as members of one family, we'll

work together to share resources and live in peace.

The Bahá'í Faith charts a path for a future society built with love, equality, and justice. It envisions us overcoming prejudice and living in unity with friends of all religions, races, and backgrounds, to create a peaceful planet.

By cooperating and opening our minds to new possibilities, everyone on Earth—and beyond—can discover new horizons of friendship.

What's your dream for the future? Help the astronauts explore cosmic virtues on their journey to the Planet of Peace.
