Brilliant Star empowers kids to explore their roles as world citizens. Inspired by the principles of peace and unity in the Bahá’í Faith, we encourage readers to use their virtues to make the world a better place.

The Bahá’í Faith is the second most widespread religion in the world, with over five million Bahá’ís. It was founded by the Prophet Bahá’u’lláh (“Glory of God” in Arabic) in 1863. Bahá’u’lláh taught that all people are part of one human family, and all religions come from one God. Bahá’u’lláh’s eldest son, ‘Abdu’l-Bahá, interpreted His teachings and led the Bahá’í community after Bahá’u’lláh’s passing.

Today, Bahá’ís work to bring love and justice to the world, and end prejudice and discrimination of all kinds.
When you look at the people around you, what do you see? Of the billions of humans on Earth, no one is exactly like another. We have different cultures, appearances, beliefs, and experiences—yet we are all members of one human family.

Our diversity can sometimes lead to conflict, but it’s also what makes Earth a vibrant place. When we look at each other through lenses of love, we can celebrate our differences and enjoy everyone’s unique contributions to our global home.

In this issue of Brilliant Star, explore the power of unity. Quiz yourself on equality and discover the beauty of biodiversity. Stretch your taste buds with delicious flavors from around the world. Meet COD1, our new computer coding character. Create a string of stars to celebrate unity in diversity. Find out how Elsie Austin stood up for fairness as a youth. And get to know Jamey Heath, a musician with a passion for bringing people together.

When we focus on our oneness, our differences simply add color and joy to our human family portrait. So get closer, smile, and say, “UNITY!”

LOVE, BRILLIANT STAR
Have you seen our new website yet? We’re over the moon with excitement about it! We’ve made stellar improvements with a dynamic design and the addition of more fun features, such as how-to-draw videos and music videos. It’s easier to navigate, and it’s now more compatible with tablets and smartphones. Have a blast exploring it and let us know what you think. Start with discovering answers to these questions.

1. Youth and junior youth made the music video “_____________________” about their quest to change the world.

2. Bahá’ís believe we are one human ________________.

3. Maya’s Mysteries presents a bubbly activity called “____________________________ of Humanity.”

4. If you type “Temple” in the search field, you’ll find a video on how to __________________ the Bahá’í Temple Gardens in North America.

5. Nur, Brilliant Star’s character who loves arts and crafts, is a _________________.

2 Brilliant Star ★ VOL. 48, NO. 2
Making group decisions can be tricky. Sometimes it hums along smoothly. Other times, everyone’s angry opinions make a racket, and it turns into mayhem.

When we consult with others, “monsters” such as anger and fear can get in the way. So try to keep an open mind, and bring your best self to the stage. We all have different ideas, and sometimes they may clash. That’s okay. But if we let negativity or selfishness rule the conversation, we only get clamor and disunity. If we all share our thoughts with courtesy and honesty, we can find a peaceful solution.

When we respect everyone and tame our inner monsters, our ideas can blend in harmony.

This eerie ensemble is deciding what to play at the Monster Bash. Match each one with the instrument that will help them consult in harmony.
A Brief Timeline

The Life of Bahá’u’lláh

The highlighted area marks the time in which this story takes place.

1817 November 12
Birth of Bahá’u’lláh in Tihrán, Iran

1844
Recognizes the Báb as a new Messenger of God

1852
Imprisonment in the “Black Pit” of Tihrán

1853–1863
Exile in Baghdád, Iraq. From 1854–1856, He goes into the mountains to pray in solitude.

1863 April 22
Declares Divine Mission as Prophet-Founder of the Bahá’í Faith

1863–1868
Exile in Constantinople (Istanbul), then Adrianople (Edirne), Turkey. Begins writing letters to kings and rulers in 1867, urging world unity

1868
Last exile, to prison-city of ‘Akká, Israel

1877
Finally free to live in countryside homes of Mazra’ih and then Bahjí, outside ‘Akká

1892 May 29
Bahá’u’lláh passes away at Bahjí.

Throughout His life, Bahá’u’lláh endured prejudice and persecution. Still, He shared His vision for peace and unity on Earth.

As a young man in Tihrán, Persia (now Iran), Bahá’u’lláh was a follower of the Báb, a Messenger of God who taught that another Messenger would appear to bring an age of peace. Bahá’u’lláh shared the Báb’s message with others, and many became Bábís.

Thousands embraced the Bábí Faith across the land. But Muslim clergy and authorities felt threatened by the new faith. Many Bábís were fiercely attacked.

In northern Iran, 313 Bábís were forced to defend themselves from government soldiers at the shrine of Shaykh Tabarsí. Bahá’u’lláh and some companions attempted to bring supplies to the Bábís there in December 1848. The group was arrested by guards. When Bahá’u’lláh asked to be punished in place of those with Him, He was tortured by having the soles of His feet beaten with a rod.

Over eight months, the Bábís survived attacks by 12,000 soldiers. Finally, the army deviously proposed a truce. When the Bábís trustingly left the shrine, they were massacred.

The Báb Himself was martyred by a firing squad in Shíráz in 1850. In spite of danger, Bahá’u’lláh and others continued to support the Bábí Faith and its followers in both Iran and Iraq.

In 1852, Bahá’u’lláh was chained to other Bábís and imprisoned in a foul dungeon in Tihrán known as the “Black Pit.” Each day, a Bábí was taken out and executed. In the icy darkness and filth, Bahá’u’lláh taught others a prayer that they repeated through the night. One row would chant, “God is sufficient unto me; He verily is the All-sufficing!” The facing row would answer, “In Him let the trusting trust.”

One night in a dream, Bahá’u’lláh heard these words: “Verily, We shall render Thee victorious by Thyself and by Thy Pen. Grieve Thou not for what hath befallen Thee, neither be Thou afraid, for Thou art in safety.” After four long months, He was released, but He and His family were exiled from Iran to Baghdád, Iraq.

Bahá’u’lláh inspired the Bábí community in Baghdád and revealed sacred writings. In 1863, He announced the joyous news that He was the Messenger of God promised by the Báb. His followers became known as Bahá’ís.

Bahá’u’lláh and His family were banished to Turkey, then sent to the prison-city of ‘Akká, in Israel. Though He faced injustice, Bahá’u’lláh focused on helping the world and promoting harmony.

At this mosque in Amul, Iran, Bahá’u’lláh was arrested and beaten in 1848 for being a follower of the Báb.
He wrote to kings and leaders, advising them to end war and treat people fairly. Toward the end of His life, Bahá’u’lláh met a British scholar, Edward G. Browne, the only Westerner known to have visited Him. Bahá’u’lláh told him, “These fruitless strifes, these ruinous wars shall pass away, and the ‘Most Great Peace’ shall come…”

The Shrine of Bahá’u’lláh, located near ‘Akká, Israel, is considered the holiest spot on Earth to Bahá’ís.

Use the key to decode Bahá’u’lláh’s words about unity.

“_e_ _re_ t_e_ _ruit_ _o_ _one_ _tree_,

_ñ_ _e_ _e_ _e_ _o_ _one_ _brnc_ .

_e_ _e_ _one_ _it_ _not_ _er_ _it_  

t_ _ut_ _o_ _e_ _n_ _r_ _on_ …”

ANSWER ON PAGE 28
Did you know that stars in the sky can appear to be almost any color of the rainbow? The star’s temperature gives it its color. Hotter stars appear blue, and cooler stars are red.

Like stars, our humanity shines in many ways. From our diverse skin tones, to how we dress, to our varied strengths, each of us is part of the vibrant spectrum of people. And just as water, air, and dust in the atmosphere can influence how a star’s color appears on Earth, our cultural background can affect how we look, our interests, and how we express ourselves. By showing respect and appreciation for people who are different from us, we can illuminate the whole earth.

Create a string of stars to celebrate diversity in your community. Use it to decorate your celebrations and events.

“Ye must shine as stars radiating the light of love toward all mankind.” — ‘Abdu’l-Bahá

**You’ll Need**
- five 3 ½” (8.9 cm) square sheets colorful paper
- five 3 ½” (8.9 cm) square sheets of thin cardboard from empty food boxes
- tacky glue
- 3 ¼” (8.3 cm) round cup for tracing
- pencil
- scissors
- ruler
- colorful yarn or string

**Create a String of Stars**

1. Glue one paper to a piece of cardboard. Place cup on board. Trace cup with pencil and cut circle out.

2. Draw 20 lines, each ¼” (.6 cm) long, spaced evenly, approximately ½” (1.3 cm) apart along circle’s edge. Cut along lines.

4. Put string in Cut 1, so its end is at back of circle.

5. To make star shape, pull string down front of circle and into Cut 10. Then pull it up along back and through Cut 2. Pull it down front through Cut 11 and up the back through Cut 3. Continue around circle twice.

6. Trim and secure yarn ends with glue.

7. Optional: Repeat steps 4–6, but start with string's end on the front side of Cut 1, and go along back side into Cut 10, then along front into Cut 2, etc.

8. Create four diverse stars by using one or two string layers, different paper and string colors, and by starting at the front or back of circle. Try a circle with 10 evenly spaced cuts about 1" (2.5 cm) apart, putting string into Cut 1 and Cut 5 first.

9. Knot a 6" (15.2 cm) piece of string to top of each star. Knot each string's end to 5 ft. (1.5 m) string, spacing stars evenly. Trim knotted ends and hang up your string of stars!
From our head to our feet, we are unique individuals with our own style. We’re also part of different cultures with traditions and ways of life. This diversity makes the world fascinating and enjoyable. People share who they are in various ways, including what they wear. Hats are a fun form of cultural expression. They can reveal a person’s nationality, job, interests, religion, or family role.

Explore hats around the world. Read each hat’s clue, then match it with the country where it can be found.

1. TAM O’ SHANTER
   I COME FROM A COUNTRY KNOWN FOR BAGPIPE MUSIC.

2. STRAW HAT
   I’M WORN ON THE LARGEST ISLAND IN THE CARIBBEAN SEA.

3. NON
   I PROTECT PEOPLE FROM SUN AND RAIN IN MY COUNTRY ON THE SOUTH CHINA SEA.

4. JAAPI
   I’M OFTEN WOVEN FROM BAMBOO AND PALM LEAVES IN MY COUNTRY, WHICH HAS THE WORLD’S SECOND-LARGEST POPULATION.

5. USHANKA
   I COME FROM THE LARGEST COUNTRY ON EARTH.

6. CHULLO
   FATHERS USUALLY KNIT A CHILD’S FIRST CHULLO IN MY COUNTRY, NEAR CHILE.

7. AKHA HEADDRESS
   WOMEN IN THE MOUNTAINS WEAR ME EVERYDAY IN MY COUNTRY WHERE THE CAPITAL IS BANGKOK.

8. KALPAK
   I’M SHAPED LIKE ONE OF THE MANY MOUNTAINS IN MY LANDLOCKED COUNTRY NEAR CHINA.

“Let us look... at the beauty in diversity.” — ‘Abdu’l-Bahá

ANSWERS ON PAGE 28
Hi, I’m COD1!
Write 4 programs below to guide me on the most efficient path. There’s a blank for each step. Use these commands:

L = Turn left
R = Turn right
F_ = Move forward _ squares

Avoid bugs and obstacles! Tables and the Recycle Bin are not obstacles.
I can’t go on the same square more than once.

So to go from Start to the Recycle Bin, my program would be: R, F4, L, F2.

L = Turn left
R = Turn right
F_ = Move forward _ squares

Avoid bugs and obstacles! Tables and the Recycle Bin are not obstacles.
I can’t go on the same square more than once.

So to go from Start to the Recycle Bin, my program would be: R, F4, L, F2.

I love helping humans get more data about how computers work. There are tons of different kinds of computers all around us. They’re in phones, watches, game consoles, music players, and cars. But they all work with programs: step-by-step lists of instructions.

The steps in a computer program are called code, like a secret code. Writing programs, or coding, is an awesome skill to learn. The goal is to list each small step a computer will take to do a job correctly.

At the Friendship Center, I’m about to put games and snacks on the tables for a party. You can help by writing my code. Try it out, and have fun!

PLAY IT LIVE!
Play the coding game in person. Write a code for a friend to get around your yard or a park while avoiding obstacles. Instead of squares, count long strides. Have a friend read the code aloud as the first person follows it (e.g., F3, R, F2). Did you get the code right?

1. Start to Supply Table:

2. Supply Table to Table 2:

3. Table 2 to Table 3:

4. Table 3 to Recycle Bin:
Science is like a treasure hunt. There are so many awesome things to discover! Scientists have listed about 1.5 million species of plants and animals on Earth. But we really have no idea how many there are. There could be 100 million!

I’m doing a science project about biodiversity—the variety of life—in different parts of the world. Some places have an amazing number of species. But many of their habitats are threatened by climate change and other problems. The more we find out about species and ecosystems, the better chance we have of protecting animals and plants from going extinct.

I’d love to visit all of these places around the world and find even more species.

Check out these clues about biodiversity, and match them to their locations.

1. About 90% of the plants and animals on this African island are found nowhere else—including the critically endangered silky sifaka lemur.

2. The world’s largest rainforest, home to at least 10% of all species, is mostly in this South American country.

3. This island is 85% ice-covered, but it has the world’s largest national park, with walruses and snowy owls.

4. This state is home to about 20% of the world’s bald eagles and three kinds of bears: black, brown, and polar.

5. This land, east of Africa, is 95% desert, but has 2,250 species of flowering plants. Hundreds are used for medicine or food.

6. Over 80% of the plants, mammals, reptiles, and frogs on this island nation are found nowhere else, including the koala and the platypus.

7. This island chain west of Ecuador is home to penguins and tropical animals, including 11 species of giant tortoise, which live 100–150 years.

8. Forests cover over half of this country on the South China Sea, which has sun bears, wild pigs, tigers, and orangutans.

Madagascar

Saudi Arabia

Diversity is good for people—and the planet.

“Every created thing in the whole universe is but a door leading into His knowledge...” —Bahá’u’lláh

Diversity is good for people—and the planet.
Did you know that 25% of marine species can be found on coral reefs? Corals are living creatures that are mostly in tropical waters. Hundreds of millions of people rely on coral reefs for their food supply, livelihood, or protection from strong ocean waves. Scientists have also discovered coral organisms that can be used to treat serious illnesses. Coral reefs are threatened by pollution, climate change, and overfishing. These magnificent resources need our protection.

Dr. Robert Bullard is known as the “father of environmental justice.” He’s stood up against racism in environmental policies that cause more pollution and other problems in poor communities. He says, “Environmental justice is a civil rights and a human rights issue.”

Gaze at the stars from your home. Pitch a tent in your yard, have a cookout, tell stories, and read Brilliant Star with a flashlight.

Gondwana Rainforest, in Eastern Australia, contains plants that have been mostly unchanged for over 100 million years.

WHERE IN THE WORLD?

This European capital, named after a dam on the Amstel River, has more than 160 human-made canals. It’s one of the most bicycle-friendly cities, with more bikes than people. It’s known for its art and history, with over 50 museums. Unscramble the letters to find its name:

STEMAMDRA

AMAZING ANIMALS

Adult kangaroos hop across the Australian outback in 30-foot (9 m) leaps. A young joey stays in the pouch for 7–11 months. Kangaroos, wallabies, and koalas all develop in pouches. Fill in the blanks to find a word that describes these animals:

A R U A L
Connect with kids around the world!
How are they like you? How are they different? Each of us has a unique story to tell. What’s yours?

Lyla K.
Age: 11
I live in: Maine, U.S.
I want to be: Broadway performer
This career interests me because: I love to sing, dance, and act.
Virtue I admire most: Integrity
Favorite Bahá’í activities: Children’s class, Green Acre [Bahá’í School], prayers
Places I’d love to visit: Haifa [Israel], Iceland
Favorite animal or pet: Humpback whales, Olive (my boxer dog), falcons, Onyx (my cat)
I like to help people by: Inspiring women to think better of themselves

Nadia K.
Age: 11
I live in: California, U.S.
I want to be: A chemist, a paleontologist, or a geologist
This career interests me because: I love science, dinosaurs, and gemstones.
Virtue I admire most: Kindness
Place I’d love to visit: Paris, France
Favorite food: Pasta

Humanity as one family means:
That we are all equal, and no one thinks more of themselves than anyone else.
I handle bullying or prejudice by: Tell someone who you trust to help and try to stop it, and find out why [the] person is doing it.
It’s important to have diverse friends:
So you get the idea that there are different ways of belief other than your own.

Amia A.
Age: 12
I live in: Illinois, U.S.
I want to be: An artist or art teacher
This career interests me because:
I love doing art and I love to teach people!
Virtue I admire most: Love
Hobbies or sports: Drawing, writing stories, and making little videos
A hero or role model: Malala [Yousafzai]
I like to help people by: Helping them get through troubles or worries . . .
I handle bullying or prejudice by: Respond[ing] to them, not by being mean, but just having strong words.

What I liked best in my travels: Seeing how people learn different things in other cultures, or . . . how people have different foods, or handle the different plants that grow . . .
Humanity as one family means:
To have your love spread to everyone around you . . .
As a world leader, I would stop prejudice by:
Making a speech . . . Everyone is full of light, love, and courage.

Favorite Bahá’í activities: Ayyám-i-Há* celebrations and jr. youth groups
A hero or role model: Mary Anning, because she found an entire ichthyosaurus on a cliff during a time when it was not proper for ladies to hunt for dinosaurs or fossils.
As a world leader, I would stop prejudice by: Stop[ping] segregation between different cultures and races and would try to promote world peace . . .
It’s important to have diverse friends:
So you can open your mind to other cultures and experience a world unlike your own, as well as learning more about people around the globe.

Humanity as one family means:
That we are all equal, and no one thinks more of themselves than anyone else.
I handle bullying or prejudice by: Tell someone who you trust to help and try to stop it, and find out why [the] person is doing it.
It’s important to have diverse friends:
So you get the idea that there are different ways of belief other than your own.

* Ayyám-i-Há is February 25–28 in 2017, days of hospitality, charity, gift giving, and preparing for the Bahá’í Fast.
1. If you’re age 7–14, go to www.brilliantstarmagazine.org. From the top menu, choose “Discover.” Then click “Become a Radiant Star or Trailblazer,” and fill out the form. Or e-mail us at brilliant@usbnc.org. Include your name, age, birth date, mailing address, and phone number.

2. When it’s your turn to shine, we’ll send you questions and a form for you and your parents to sign.

3. Answer the questions and send them to us with the signed form, along with at least two good-quality, close-up photographs of your smiling face. Photos should be in sharp focus and show your eyes clearly. Please don’t send color copies, low-resolution digital images, or copyright-protected images (like school portraits).

“God has crowned you with honor and in your hearts has He set a radiant star; verily the light thereof shall brighten the whole world!” — ‘Abdu’l-Bahá
Disturbing Distractions

LATER, AT THE BLAZE HOME...

Yikes! Are they OK?

I thought you got new clothes on Monday... and Wednesday.

I did, but you can’t advance in the new Mirror Me game unless you post pics of fab new outfits. I got 640 likes!

They’re fine. Bridget, you didn’t say if you like my new outfit.

They’re fine. Bridget, you didn’t say if you like my new outfit.

Yikes! are they ok?

They’re fine. Bridget, you didn’t say if you like my new outfit.

I thought you got new clothes on Monday... and Wednesday.

I did, but you can’t advance in the new Mirror Me game unless you post pics of fab new outfits. I got 640 likes!

Thanks, Bridget. You saved me! And I almost lost a level in the game!

What’s so great about this game that you spend so much time and money on it?

It’s really distracting, but it takes my mind off of my nightmares.

It’s fab! You should try it.

Ouch! I keep getting shocked.

Colin! You gonna jump in with our science project?

Uh-huh.

You’re in the Mansion of Mirrors! Wow, how did you get past the moat?

*See Episode 68 (Vol. 48, No. 1)
You have to show me!

UGH! You’re addicted to that app, too?

CRAAASSH!

OH NO!

COLIN, CALL AN AMBULANCE!

NEVER MIND! I’LL CALL...

We need an ambulance at Ninth and Unity Avenue.

Sir, help is on the way. I must get to... next level...

Whoa! This is no ordinary app...

In a secret lair...

Now, make sure my new merchandise is fully stocked and ready to go, and get delivery drones ready!

My fans will pay dearly to look as Fab as I do!

Hello? I’m so busy right now. What do you want?

Elka Ego, we need an update. To destroy the uplifters, you need to do much more than just sell clothes and—stuff.

My dear erasers, don’t worry. Soon the uplifters...

And millions more around the world—will be at my mercy!

When someone speaks unkindly, it can be hard to know what to say. How do you stand up for justice without being mean? What words might help the person become more open-minded instead of angry?

If people make judgments about others based on their looks or culture, without getting to know them, that’s prejudice. Sometimes it even leads to conflicts, violence, or war.

It takes courage to speak up. But if you stay silent, unfair ideas can spread. Check out these situations. How would you respond to prejudice?

**She’s in my art class. She’s cool. She can sit here if she wants.**

**Look, Corbin’s taking yoga. That’s for girls!**

**Guys and girls can both learn yoga. It takes strength and flexibility.**

**Guys and girls can like the same stuff. Lots of male athletes do yoga.**

**Why does God let bad things happen?**

**God doesn’t cause war and fighting. People do. Prejudice leads to lots of problems. Religion can help us get along.**

**Religion doesn’t make any sense. It leads to fighting and wars.**

**There’s a lot of suffering in the world, but praying and kindness can help people live in peace.**

**That weird girl with the crutches is looking this way. Don’t let her sit here.**

**She’s in my art class. She’s cool. She can sit here if she wants.**

**Let’s get to know her. She seems nice.**
When you think of your family, what images come to mind? Your favorite trips together? Your holiday traditions? Your family pets?

American Indians in the U.S. and First Nations cultures in Canada tell family stories with totem poles. Cedar logs carved with animals and people represent tribes, families, or legends.

In the past, artists used handmade tools and natural paints made from things such as minerals, shells, and salmon eggs. The figures on a pole have meanings that vary with different tribes. An animal may represent a family’s clan. A person with outstretched hands can be a sign of welcome and peace. A raven might symbolize the Creator, while a wolf may stand for family unity.

Today, modern carvers continue to create these majestic, colorful works of art. Many stand in parks, villages, and museums, honored as symbols of a rich heritage.

What stories would you tell on your totem pole? Think about symbols that represent your family, and create your own family totem pole here.
Have you ever been teased or bullied for being a certain way, because you’re a girl or a boy? For example, girls may be expected to enjoy dancing or cooking more than sports or robots. Boys might be expected to like science more than sewing.

The idea that girls should act one way and boys another is a stereotype—an unfair assumption about a group of people. The truth is that there are lots of wonderful ways to express yourself, whether you’re a girl or a boy.

Sadly, many girls and women are denied the same chances that boys and men have to go to school, get a job, earn fair pay, and other basic rights. But the Bahá’í Faith teaches that women and men are equal. Both genders need strength and respect to help create a peaceful world.

Do you stand up for equality? Choose your answers, then add up your points.

1. I compliment friends about their accomplishments and virtues, not just how they look or what they wear.
   Often = 3 • Sometimes = 2 • Rarely = 1

2. I support friends in their goals and hobbies, even if they like to do things that are unusual for their gender.
   Often = 3 • Sometimes = 2 • Rarely = 1

3. I avoid making comments that put down either girls or boys as a group.
   Often = 3 • Sometimes = 2 • Rarely = 1

4. I’m open to learning skills that aren’t expected for my gender (such as building for girls or knitting for boys).
   Often = 3 • Sometimes = 2 • Rarely = 1

5. When I hear about an issue of gender equality in the world today, or in history, I try to learn more about it.
   Often = 3 • Sometimes = 2 • Rarely = 1

6. I notice gender stereotypes in the media, and I think about them.
   Often = 3 • Sometimes = 2 • Rarely = 1

7. I admire role models based on their virtues and strengths, whether they’re female or male.
   Often = 3 • Sometimes = 2 • Rarely = 1

8. I speak up when I notice any group of people being treated unfairly.
   Often = 3 • Sometimes = 2 • Rarely = 1

9. I have a mix of friends from both genders.
   Often = 3 • Sometimes = 2 • Rarely = 1

10. I keep an open mind and don’t judge people based on their looks, speech, clothing, or gender.
    Often = 3 • Sometimes = 2 • Rarely = 1

11. I choose books, clothes, and games that I like, even if they’re not what’s expected for my gender.
    Often = 3 • Sometimes = 2 • Rarely = 1

12. I like books and movies with heroic, strong, interesting characters—it doesn’t matter if they’re female or male.
    Often = 3 • Sometimes = 2 • Rarely = 1

**My Total Score:**

36–29 points: You’re a champ at focusing on fairness and equality for both girls and boys. Keep up the good work!

28–21 points: You’re doing a good job of promoting equality. Look for ways you can speak up even more.

20–12 points: You’re learning about equality, but you could focus on it more. Choose a tip from the quiz to work on.
When you think of rats, what comes to mind? Sneaky, creepy pests? “You dirty rat!” is a well-known insult. But while wild rats can carry diseases that are harmful to humans, we can’t assume that all are dangerous. Many rats are actually clean, intelligent, and social animals.

Rats even seem to show empathy—understanding how others feel. Scientists have found that if a fellow rat is trapped, a free rat will figure out how to rescue it. Often, the rescuer will even postpone grabbing a tempting treat like chocolate. And they’ll share the chocolate afterward!

Rats show us that prejudices can color our judgment. We need to be fair and sniff out the truth. Empathy opens the door to true connection and understanding.

Find words about ending prejudice and building empathy. Look for words going forward, backward, up, down, or diagonally.
Explore & Soar: Yummy Almond Butter and Apple Wraps

By Andrea Hope

Most people think of almonds as nuts, but they’re really seeds from a fruit related to a peach. They’re also a tasty treat packed with protein and other nutrients. Check out this great recipe using an alternative to peanut butter—almond butter!

You’ll need:
• 1 whole wheat tortilla
• 1 sliced apple
• 2 tbsp. almond butter
• Spoon or butter knife

Spread almond butter in middle of a whole wheat tortilla. Add apple slices, then roll up the tortilla. Add almond butter at the edge of the tortilla to make it stick. Tuck in ends on both sides and cut the wrap in half. Enjoy!

Eat Locally, Taste Globally

Have you ever eaten injera from Ethiopia or nacatamales from Nicaragua? Our global home is full of unique, delicious foods. There are hundreds of different cuisines we can explore!

Why do foods around the world taste so different? One big reason is that most traditional dishes are made from ingredients that are locally available. For example, rice grows well in the soil and climate of Eastern Asia. Corn and tomatoes are popular crops in Central America. Fish and olives are natural foods from the Mediterranean. Each region also uses blends of herbs and spices that create distinct flavors.

Some ingredients are widespread. Cilantro (called coriander in some countries) is a leafy green herb commonly found in European, Latin American, Middle Eastern, North African, and Asian dishes. Garlic and onion are used around the world. And salt is universal.

It’s fun—and healthy—to try new foods from different cultures. Many traditional meals use whole grains, lean meats, and fresh fruits and veggies, which are more nutritious than highly processed convenience foods. Ask a friend from another culture if they’ll share their favorite recipes. Get cookbooks at the library, or find recipes online. Learn about where each dish comes from. Experiment with different herbs and spices.

It’s better for the environment and our communities to eat food grown locally as much as possible, so try combining local harvests with global flavors to create your own fusion of food. Bon Appétit!

Curiosity Canopy

Did you know? Centuries ago, explorers ate almonds while traveling the Silk Road, a network of trading routes between Asia and the Mediterranean used from about 130 BCE to 1453 CE. Almond trees flourished in the Mediterranean, especially in Spain and Italy. Today, more than 80% of the world’s almonds are grown in California, U.S.
What if you couldn’t go to school because a flooding river blocked your path? Or sick people in your town couldn’t get to the hospital? In many places around the world, bridges are desperately needed for people to live fully and safely.

Sometimes we need to build bridges between people, too. When different cultures interact, there may be confusion about customs, language, or gestures. With kind words, a smile, or a helping hand, we can connect with others, work together, and make new friends.

Reaching out to people can be scary and difficult at times. You might feel shy or be afraid that others won’t be kind in return. But keep trying! When we build bridges of kindness, we make connections that will lead us to a more united world.

Jamey Heath

Wouldn’t it be cool if you and your cousins sang on an award-winning music album together? That’s what happened to Jamey Heath at age 10. Since his dad is a musician, Jamey often spent time in a recording studio. With his family and friends, he recorded the album *Happy Ayyám-i-Há*.

At 13, Jamey started playing in bands, and by 14 he was earning money. Since then, he’s built a successful career as a composer and studio producer. He’s supported the work of artists such as Gladys Knight and companies such as Disney and SoulPancake.

In 2013, Jamey released a Bahá’í-inspired album called *I Have Returned to Thee*. He loves being of service, so you may meet him at Bahá’í conferences in California, Wisconsin, and anywhere he’s asked to share his talents. Jamey and his family currently live in Los Angeles, California.

Q: What’s your favorite childhood memory?
A: One of my memories is traveling with the [Bahá’í Youth] workshop. We went all around the country and to Canada as well and I got to build some amazing friendships and got to learn the value of service. [Those were] some good, good, amazing times in my life, for sure.

Q: What was your most challenging experience as a kid, and how did you handle it?
A: School... I was so distracted with music, and so I made a deal with my parents that if I could get into this music college... in 10th grade instead of going to school, I would go to this music college. And you had to be 18 to get in, [but] I got accepted... I left school and went straight to music college.

Q: What inspired you to choose a career in music?
A: I was raised in a musical family... The studio that my family owned also had living quarters, and school was right there, so I spent all my time in the studio. And I just kind of always knew how to do it. I always had an instrument in my hand... It was playing piano, guitar, but really it was producing. I always had a knack for technology and recording and arranging. I was always interested in accessing music and taking it apart, trying to put it back together with some new elements.
Q: What qualities do you think are most important for a successful musician?
A: Being prolific. Really, really writing a lot of things. Just keep grinding away and not have one or two songs, but have many, many pieces of music. You don’t take one dart at a time and try to hit the bullseye. You grab 10 darts and you throw all of them at the dart board. It’s a much better chance of getting one to stick.

Use your music to be of service. Learn how to collaborate and work with people, because everyone is connected to something, and there’s so much to learn from other people. And learning from other people also opens doors for yourself when that wouldn’t otherwise maybe happen.

Q: What can kids do to help build unity in their communities?
A: Being involved in junior youth programs for sure. Not just hanging out. Doing something with purpose. And, I think doing sports. I’ve noticed that when my son is involved he makes friends in so many different areas outside of our own because of sports—the camaraderie that it brings.

Q: Do you ever feel nervous before you perform? If so, what do you do?
A: No. Maybe it’s because most of it is service-oriented, so it’s like being with God at the moment. Some of the conferences I do—what I always do when I go up is do a short prayer. So I can just humble myself and stay connected. So maybe that’s part of why the nerves aren’t really there. I’m always starting with a prayer.

Q: What are virtues that you admire in other people?
A: When people express themselves, express love for other people. I admire when I hear other people say “I love you” instead of “love you,” when they use the word “I.” You know, just that they are able to be vulnerable. And honesty. When I was a kid, honesty was something that I had to work hard on.

Q: From your experience, do you have advice for kids who want to be professional musicians someday?
A: One of the things that I tell a lot of people that I work with is to absolutely learn how to connect. People hire people that they like. It just goes back to being good to people, and actually be invested in who they are. It really requires knowing people and, you know, knowing how to get along with people.

Left: Jamey performed at the Los Angeles Bahá’í Center in 2013. He starts his Bahá’í performances with singing a prayer. Right: Jamey married Natasha in 2013 in California. With them are Jamey’s children, Nakhjavani and Jazmin (right).
AMISTAD
By Francisco Cotto and Danny Lapidus

Verse 2
When you’re down and out
When you’re down and out, there is no doubt
I’ll be right there when you need me
No matter the reason or the season

Yes it’s true as the oceans are blue
And dark skies and the lows and highs
Chorus
Break
Chorus
H! It’s Zeke and Rhombus, from Planet Zilizag.

We love to travel the universe to find planets that have learned to live in peace.

A huge step to peace is ending prejudice. Zilizag was once at war. The Zil and the Zag groups hated each other. But our planet was endangered by a changing climate, so we worked together.

It was amazing—we saved our planet, and the two groups became one. We built homes, ships, and spacecrafts. War stopped. Poverty was erased. Prisons closed. Cities became safe and friendly.

We help other beings build unity, too. We can’t wait for Earthlings to end prejudice and join the galactic family as our distant cousins.

---

1. ___________ across the galaxies have awesome wisdom and stories. Honor them with respect.

2. ___________ is a pigment that darkens skin and protects humans from the sun. Inside, Earthlings are all the same.

3. In the U.S., it’s expected that no ___________ group will be a majority by the year 2043.

4. Working in teams with diverse people can be tough, but it can lead to more ____________________.

5. On Earth, women in all countries earn less than men. No matter what the ___________, everyone deserves fair pay.

6. Racial discrimination causes ___________ that can lead to depression and chronic illness. Justice is healthy!

7. Nearly 75% of Earth’s people deal with limits or hostility toward their _____________.

8. Last year, over 65 million people had to leave their ___________ due to persecution and war.

ANSWERS ON PAGE 28
Elsie Austin was one of only two black students in her high school class in Ohio, U.S. One day, her teacher read from a textbook that Africans had played no important role in history and were inferior to other races. Everyone stared at the black students.

Elsie spoke up. She said that Africans had worked with iron and bronze long before Europeans, and they crafted beautiful ivory sculptures. “There was an electric silence,” Elsie recalled. But her teacher agreed with her and shared other contributions by African Americans.

Elsie learned gumption from her family. Once, the racist group, the Ku Klux Klan, broke into her great-grandmother’s house. They pointed guns at her and demanded to know where her husband was. She looked them in the eye and said, “Go ahead and kill me, because I will never tell you where he is.” They eventually gave up and left.

“I was awed and inspired by that story,” Elsie said, “by her courage, a lone woman in a hostile, dangerous environment—and her determination not to give in to injustice and oppression, even at the risk of death.”

Education and Leadership

Elsie carried that courageous spirit into her adult life. She was the first black female graduate of the University of Cincinnati Law School in 1930. She later became the first black female Assistant Attorney General for Ohio.

Elsie was frustrated by religions that fought with each other and acted with prejudice. She told her father that she was giving up on religion. He had heard of the local Bahá’ís and their mission of unity, and he encouraged Elsie to talk to them.

For two years, Elsie studied the Faith. She found African-American speakers and musicians for a race amity conference in 1935. Afterward, she became a Bahá’í. She wrote that the Faith “begins with that essential spiritual regeneration of the human being which creates a heart for brotherhood and impels action for the unity of mankind.”

In 1946, Elsie was elected to the National Spiritual Assembly, the governing council of the U.S. Bahá’ís. She served for seven years.

Service Around the World

In 1953, Elsie moved to Morocco to help establish the Bahá’í community in that part of Africa. She said that through such an experience, “You begin to understand how much oneness there is with humanity and how much people in other parts of the world are going through the same experiences that you go through in your homeland.”

In 1960, Elsie became a Foreign Service Officer, working with cultural and educational programs of the U.S. Information Agency in Nigeria and Kenya. She started the agency’s first women’s activities programs in Africa.

Elsie continued to speak and write about the Faith until her passing in 2004 at age 96. The U.S. National Spiritual Assembly praised her “natural, unaffected dignity, and a sincere, loving interest in the doings of her fellow humans . . .” The Universal House of Justice wrote that her “shining example . . . will remain a source of inspiration to her fellow believers for generations to come.”
One of the first times a person saw Earth from outer space was in 1968. Until then, many people imagined countries with solid borders, like walls. But when images of sections of Earth from the Apollo 8 spacecraft appeared on TV, everyone saw a new perspective. The view of our planet as one home for all of us grew clearer.

In 1972, the Apollo 17 crew took the famous "Blue Marble" photo of the planet, and it was printed on the front page of nearly every newspaper. As Bahá’u’lláh had said, "The earth is but one country, and mankind its citizens."

We’re living in a special time. Bahá’u’lláh says that peace on Earth will come. Prayer can help. Envision our diverse planet at peace as you say this prayer. Writing it out a few times can help you memorize it.

Thou kind Lord! Unite all. Let the religions agree and make the nations one, so that they may see each other as one family and the whole earth as one home. May they all live together in perfect harmony. O God! Raise aloft the banner of the oneness of mankind. O God! Establish the Most Great Peace. Cement Thou, O God, the hearts together. O Thou kind Father, God! Gladden our hearts through the fragrance of Thy love. Brighten our eyes through the Light of Thy Guidance. Delight our ears with the melody of Thy Word, and shelter us all in the Stronghold of Thy Providence. Thou art the Mighty and Powerful, Thou art the Forgiving and Thou art the One Who overlooketh the shortcomings of all mankind. —’Abdu’l-Bahá
I wonder if those two will ever learn to get along. Sure they will! Owl, they need love!

I always enjoy looking at all of the different people in the magazine. I love reading the magazines and can't wait to get the next one.

I love being a Bahá'í. I love going to Sunday classes at my grandma and grandpa's house along with my neighbors . . . Me and my mom always read a Bahá'í story every night, and sometimes it is from Brilliant Star!!!

We love reading the quotes . . . in there.

“Your souls are as waves on the sea of the spirit; although each individual is a distinct wave, the ocean is one, all are united in God.” —‘Abdu’l-Bahá

In the ocean, it’s impossible to see where one wave ends and the next begins. Waves flow in different sizes, but they are all part of one surging sea.

Our human family is like an ocean, too. It’s amazingly diverse, teeming with life, and constantly changing. But it’s also part of one unified whole. Like drops of water we mingle together, reaching distant horizons and incredible depths.

As we navigate life, we each make waves in our own ways. We won’t always agree with everyone. But for humanity to find the calm of peace and justice, we need to remember we’re more alike than different. No matter what we do or where we come from, we are sisters and brothers on a spiritual voyage together.

Help the friends sail between the waves and creatures to reach the Lighthouse of Hope.
“Consort with all the peoples, kindreds and religions of the world with the utmost truthfulness, uprightness, faithfulness, kindliness, good-will and friendliness . . . that ignorance, enmity, hate and rancor may vanish from the world and . . . give way to the Light of Unity.”

—‘Abdu’l-Bahá
