

# SOARING WITH ART

**H**ave you ever taken a hot air balloon ride? You climb into the basket and feel the warmth of the burner as it slowly inflates the balloon. As you gently lift off, you look out and see the world from a whole new perspective. It's inspiring and humbling to see how the rivers carve their way through the hills. The giant trees get smaller as you float higher above them.

Like a hot air balloon, art can uplift our spirits. When we're drawing, writing, or performing, we reflect the light and love of God. Creating art is also a way to express gratitude for the joy in our lives. It warms our hearts and elevates our communities to greater heights. Decorate the balloons with designs that raise your spirit. Draw yourself and your friends taking flight. Then give your artwork an uplifting title.
