

# Divine Sunshine

**O**n a summer day, you enjoy the sun's warmth and light. The sun helps all creatures. It fuels plants and trees, which give us oxygen and food. You can feel the sun, but it's impossible to truly comprehend it. It's a ball of gas so massive that 1.3 million Earths could fit inside of it! Just as the sun is a mystery, God's essence is unknowable.

Our minds can grasp some things about God through the qualities of His Messengers, such as Buddha, Jesus, Muhammad, the Báb, and Bahá'u'lláh. We can also see God's attributes in people when they show love and other virtues.

When we take in spiritual nourishment from God, we can make fruitful contributions to the world.

At this farm stand, fill in the letters to find ways to build true friendships with people of all faiths.

\_\_\_ MI \_\_\_ E AND GREET  
PEOPLE OF ALL FAITHS  
WITH FRIENDLINESS.

\_\_\_ EA \_\_\_ N ABOUT  
THE TEACHINGS OF  
VARIOUS RELIGIONS.
