

UPLIFT EQUALITY

As Uplifters, Lightning and Luna are stronger, faster, and more powerful than most people. They can shatter stereotypes and explode expectations. Their amazing abilities are fueled by virtues. So they can only fly, turn invisible, or use other special powers when they're helping people or battling the Erasers, who plot to wipe out humanity's positive qualities.

In a similar way, we strengthen our virtues when

we stand up for justice. It's not always easy to be your true self and share your beliefs. Negative forces like prejudice, ignorance, and greed are just as devious as any villain. When fairness and peace are under attack, investigate the truth and leap into action. Whether you stick up for a kid who gets teased, help the hungry in your community, or make progress on your goals, you have the power to change the world!
