

ENCHANTING ART

Making art is magical! You can create anything you imagine, from a soul-stirring song to a playful painting or a dramatic dance. Through all kinds of arts and crafts, you tap into your creative spirit.

It's easy to be critical of your art if you don't think it will win a contest or get lots of "likes" from friends. You don't

have to be super skilled to make art. Follow your curiosity and make something that's meaningful to you. Express your feelings with a camera, clay, or a clarinet. Try different arts, get messy, and go at your own pace. Share it with friends or keep it to yourself—it's your choice. Like a magic spell, creativity can enchant your heart!

Fill in the blanks to complete tips for being creative and resourceful!

1 PUT YOUR OWN SPIN ON THINGS AND DARE TO BE DIFFERENT!

BRAVE BULLET SHOES
